

JMS morning drop-off procedures

In the morning, cars should enter the JMS rear parking lot using the first entrance/exit. Cars should line up in an orderly fashion along the curb in a single file line. Students will exit your vehicle once they are next to the curb and walk along the sidewalk into the gym. **The gym doors will open at 7:15am each morning and students will remain in the gym until they are dismissed to homeroom at 8:00am. Students are not allowed to be dropped off before 7:15am.**

JMS afternoon student pick-up procedures

In the afternoon, cars should enter the JMS rear parking lot using the second entrance/exit. No cars will be permitted to enter the first entrance to the lot in the afternoon. Cars should line up in an orderly fashion along the curb in a single file line. JMS staff will direct cars into and out of the Student Loading Zone at dismissal. Cars will line up in the Student Loading Zone in six lanes. Students will only load after all cars have come to a complete stop in the zone in all six lanes. This is called wave one. Once the students have loaded wave one, cars will be dismissed by lane starting in the lane closest to the building. Once all six lanes have exited, the next wave of cars will be allowed to enter and will fill up one lane at a time. Students will be held on the sidewalk until all cars are at a complete stop in all six lanes and then will be permitted to load into their cars. Cars will be dismissed one lane at a time until all six lanes have exited. Please follow any directions given by JMS staff as this will allow us to maximize student safety and minimize waiting time for everyone.
